

DEAR PARENTS (ECP)

Our class has begun a project about mangoes. A project is an in depth study of a meaningful and interesting topic. The children would be involved in many first hand experiences to explore the topic mangoes using senses.

Projects provide an excellent opportunity for parents to become involved in their child's learning. There are many ways that you can contribute to our mango project. Talk with your child about his/her prior experiences with mangoes. For example you could talk about types of mangoes, different colours and shapes or foods made from mangoes that your child has eaten. Also share any experiences you have about mangoes (making mango pickle, visiting an orchard etc..) you are welcome to send few pictures (cut outs from magazines or news papers) related to mango.

Encourage your child to talk about the project and his/her participation in activities.

Thank you for your contribution to your child's learning.
